

ITRCA, LLC. Rules and Regulations

These rules are in addition to, and not in derogation of the rules of common sense and exigencies that might arise at the scene. These rules in no way constitute the entire scope of how the event will be run, and the organizers reserve the right to implement rules on the scene as needed, or invoke and enforce a summary judgment based on circumstances that exist at the time. AUTOBAHN COUNTRY CLUB and Expo staff reserves the right to expel any person from the event at any time without refund.

For any questions related to the Rules & Regulations below, please contact any of the ITR Expo Organizers.

Conduct:

The ITRCA, LLC Expo is an instructional driving event. Drivers are required to operate their vehicles within the rules that will be given at the event, and within the limits of their automobiles and the pavement. Attendance at each driver's meeting is **mandatory**. An unexcused absence will result in the loss of driving privileges. Aggressive driving, risky maneuvers, excessive off-course excursions, or discourteous driving are strictly prohibited.

Participants are expected to conduct themselves according to the highest standards of courtesy and sportsmanship, particularly in their relationships with other drivers, course officials and AUTOBAHN COUNTRY CLUB staff, and in a manner that will not reflect adversely on the reputation of the group. Please keep in mind that Expo does not stop at the track's gates. These rules of conduct extend to the event hotels. High performance driving demands alertness and concentration. In order to ensure that all drivers are well rested and alert, Participants must be respectful of each other's right to a peaceful night's sleep. Fireworks, explosive or incendiary devices are strictly prohibited.

Failure to abide by these rules of conduct will, in the sole and final discretion of the Event organizers, result in penalties such as loss of driving privileges, up to and including expulsion from the Event.

While the Expo provides an opportunity for friends to socialize, a **ZERO TOLERANCE** policy will be in effect for drunken and disorderly conduct. A Participant who consumes illegal drugs during or within 24 hours prior to the event will be expelled. A Participant who consumes alcohol within 8 hours prior to when the track goes hot will, at a minimum, lose driving privileges for that day. Violation of the rules of conduct while the Participant is perceived to be under the influence of alcohol or drugs, or perceived to be exhibiting post-consumption symptoms such as a loss of alertness, awareness or mental acuity will, in the sole and final discretion of the Event organizers, result in loss of driving privileges, and/or more severe sanctions up to and including immediate expulsion from the Event. A Participant who is expelled from the Event will not receive a refund.

NOTE: Due to incidents at previous events, anyone caught breaking the rules (examples: burning anything (including fireworks), performing "burnouts", et cetera) will be IMMEDIATELY EXPELLED from the event WITHOUT REFUND. Also, anyone expelled from the event may be prohibited from returning to future events held by ITRCA, LLC.

**Integra Type R Expo 10
Autobahn Country Club Joliet**

Passengers:

Passengers on the track are allowed only with the knowledge and permission of the organizers. The ability to take a passenger on track is a revocable privilege, not a right. It is expected that instructors will be the only persons approved to take passengers. Absolutely NO devices such as cameras, etc. are to be held by passenger or driver while on course. All such equipment must be firmly fastened/secured to the inside of the vehicle.

Instructors should not solicit Participants to drive Participants' cars on track. However, Participant may request that an instructor drive his or her car. If an instructor agrees to drive a Participant's car, then in the absence of an agreement to the contrary, signed by the Participant and each Releasee against whom Participant may assert a claim for damages, the terms of the General Release and Waiver of Liability for the Event shall govern and restrict Participant's claims for any and all injuries and damages which are caused by negligence, whether active, passive, ordinary or gross, or otherwise of the Releasees.

Alcohol and other drugs:

A Participant who consumes illegal drugs during or within 24 hours prior to the event will be expelled. A Participant who consumes alcohol within 8 hours prior to when the track goes hot will, at a minimum, lose driving privileges for that day. Violation of the rules of conduct while the Participant is perceived to be under the influence of alcohol or drugs, or perceived to be exhibiting post-consumption symptoms such as a loss of alertness, awareness or mental acuity will, in the sole and final discretion of the Event organizers, result in loss of driving privileges, and/or more severe sanctions up to an including immediate expulsion from the Event. A Participant who is expelled from the Event will not receive a refund.

On-Course Rules:

Copies of on-Course Rules, including passing signals and the use of flags will be included in the event's information packet.

Basic Safety:

The understanding and conformance to these regulations is the driver's responsibility. These regulations do not guarantee or imply that injuries or death will not occur. If there are any questions or problems with these regulations, it is the reader's responsibility to contact the organizers with any questions well ahead of the event.

Participants Must:

- Be at least 18 years old or accompanied by a legal Guardian.
- Hold a current valid state drivers license
- Have the use of an automobile that meets technical requirements
- Have proper safety equipment as defined in the rules
- Fully pay all applicable fees
- Have knowledge of the rules and agree to abide by them
- Submit a signed waiver and tech inspection form before driving in the event

Damage to AUTOBAHN COUNTRY CLUB Facilities:

Participants may not use jacks or jack stands, nor do any refueling, nor create holes of any kind on any asphalt surface. Participants shall place wood or some other material under jacks and jack stands so as to protect the ground surface from damage. Participants may not paint any paved surface, and shall remove all trash, vehicle parts and debris. All waste fluids must be disposed of in the appropriate containers provided by the track. The cleanup of spilled fluids is very expensive, and it is expected that AUTOBAHN COUNTRY CLUB will charge ITRCA, LLC for all damages and costs of cleanup. Any charges incurred by ITRCA, LLC as a result of Participant's actions will be charged to the offending Participant.

Integra Type R Expo 10
Autobahn Country Club Joliet

Tech Inspection:

Participants are required to have their vehicles inspected by a qualified mechanic prior to the Event, and to bring the completed tech inspection form to registration. ITRCA, LLC may conduct cursory a inspection of Participant's vehicle prior to or during the event, however, in doing so ITRCA, LLC does not make any representations as to the safety or mechanical condition of the vehicle. The responsibility of ensuring that the vehicle is safe and in proper mechanical condition to participate in the Event falls exclusively upon the Participant and his or her mechanic.

Required Equipment:

All Participants must utilize equipment that meets or exceeds the requirements below:

Vehicle Equipment:

All vehicles must be inspected BEFORE the event and have a Tech Inspection Form completed by a qualified technician. The vehicle must meet or exceed all of the requirements stated in the Tech Inspection Form (included in the information packet).

Driver/Instructor/Passenger Equipment:

- A proper fitting helmet that meets Snell rated SA2000 or M2000 or higher standards. (M2000,M2005,M2010,SA2000,SA2005 ONLY)
- Non-synthetic fabric clothing (i.e. Cotton), including long trousers, socks and a long-sleeved shirt.
- Shoes must be closed and of a flexible solid leather or imitation leather construction.

Appearance:

All vehicles must be in generally good condition and appearance. Excessive body damage is not allowed, and there should never be the appearance of a danger that something will fall off the car or otherwise pose a hazard. The vehicle must meet the 50/50 rule, which means the vehicle must look undamaged and straight at fifty miles per hour from fifty feet.

Noise Levels:

A 105db noise limit is strictly enforced. No race engines may be started before 8:00 am or after 6:00 pm.

Wheels and Tires:

The general condition of the tire and wheel assembly must be good. There should be no cracks or other damage to the wheels. No cords, bubbles, plugs, or other visible damage to the tire. R-Comp (competition) or higher tires are only allowed for Advanced level students and Instructors. All Novice and Intermediate students must use street tires. All lug nuts must be present and tightly hold the tire and wheel assembly to the car's hub. Wheel bearings must be tight. Any wheel covers, hubcaps or trim rings must be removed.

Windows:

Front windows must be rolled down on both the driver and passenger side. This facilitates safety and signals.

Steering and Suspension:

The steering and suspension should be checked for general condition. There should be very little play in the suspension and the steering.

Integra Type R Expo 10
Autobahn Country Club Joliet

Engine Compartment:

There should be no fluid leaks from the engine. A radiator overflow should be present and working. Oil breathers should return the oil to the engine or a catch can. All hoses should be in good condition.

The throttle must have a definite, positive return to idle.

Please make sure your car is in good condition!

Brakes:

The brakes should be in good working condition and must be able to stop the vehicle in a safe distance and in a controlled manner. Brake pads should be at 50% wear or better. The pedal pressure should be firm. Fluid level will be correct and the brake lines will be in good condition.

Occupant Safety:

The driver's and passenger's safety items should be identical. In any event, the passenger's safety items must equal or exceed the quality and level of protection offered by the driver's safety items, including but not limited to roll bar/cage, seats, belts/harnesses and roll bar padding. Where SFI or FIA certifications are required, the Participant must be able to display an appropriate SFI or FIA label during tech inspection.

Roll Bars/Cages:

Roll bars are advised for the event, but not required. Any roll bar must be able to withstand the compression forces involved in the supporting the full weight of the car in extremely adverse circumstances. All cars with roll bars and roll cages must meet the prevailing [NASA CCR](#) requirements, must be mounted correctly according to the [NASA CCR](#), and all roll bars and roll cages must be adequately padded with the correct material, protecting the driver and passenger equally. Padding must be applied anywhere there is the possibility of contact between the Student and/or Instructor and the roll bar/cage.

If a roll bar/cage is installed, FIA certified non-reclining race buckets must be used for any seat that may be utilized during the event (i.e., both front seats if an instructor or passenger may be in the car, or driver's seat only if no one will be in the passenger seat anytime the car is on a hot track). See "Seats" below.

Additionally, if a roll bar/cage is used, the vehicle must have SFI and/or FIA certified 5 or 6 point harnesses installed for any seating position that may be used during the event and any such harnesses must not be more than five (5) years old. See "Seatbelts and Harnesses" below.

Seats:

All seats must be securely fastened to the structure of the car.

If a roll bar/cage is not installed, stock style seats (i.e., original seats, or original seats from another trim level of the same vehicle) must be used.

If a roll bar/cage is installed, FIA certified non-reclining race buckets must be used for any seat that may be utilized during the event. Race buckets must be mounted correctly according to the [NASA CCR](#).

Integra Type R Expo 10
Autobahn Country Club Joliet

Seatbelts and Harnesses:

If the vehicle does not have a roll bar/cage, OEM seat belts must be used in their factory configuration. Non-OEM style 3 or 4 point harness systems are NOT allowed. Seatbelts must be in new or perfect condition.

If a roll bar/cage is used, the vehicle must have SFI and/or FIA certified 5 or 6 point harnesses installed for any seating position that may be used during the event and any such harnesses must not be more than five (5) years old. All harness systems must be mounted in accordance with [NASA's CCR](#) (Section 15.5)

Convertibles:

All convertibles:

Convertible soft-tops must be down at all times while on track. Arm restraints are required if a hard top is not in use.

Convertibles with factory roll-over protection:

(e.g.: Honda S2000, BMW Z3, et cetera)

Any convertible with factory roll-over protection is allowed without further modification, provided both the driver's and passenger's helmets have at least 1 inch of clearance below a plane drawn between the top of the factory roll hoop and the top of the windshield frame. Roll bars/cages may be added to the vehicle as long as proper seats and harnesses are utilized.

Convertibles without factory roll-over protection:

(e.g.: Mazda Miata, et cetera)

Any convertible without factory roll-over protection MUST have a NASA legal roll bar / cage installed with proper seats and harnesses.

Battery:

The battery must be securely fastened using at least two bolts, and there must be no chance of the battery coming loose in adverse situations. A non-conductive material must cover the positive terminal. Any battery located inside the driver's compartment must be approved ahead of time.

Gas Caps:

All vehicles must have gasoline caps that will ensure that fuel will not spill out of the tank under hard driving.

Exposed Wires:

There should be no exposed wires inside the car that might interfere with the safe operation of the vehicle.

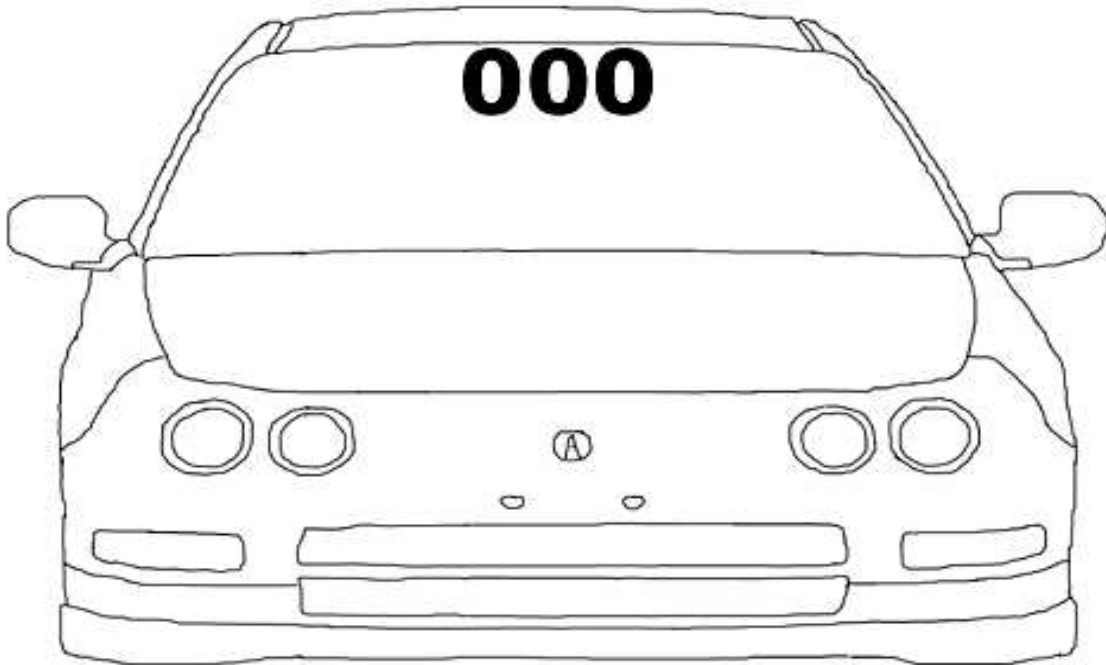

Loose Objects:

All loose objects must be removed from the car. Floor mats, loose tools, and anything else that might be a risk must be removed.

Car Numbers:

Car numbers of an approved design will be supplied at the track and are to be displayed on the top center of the windshield:

Place Car # in the top center of the windshield, as seen below.

Mirrors:

If the factory mirrors have been altered or removed, the configuration must be approved ahead of time.

Camera Mounts:

Camera mounts are allowed but must be approved by the instructors or organizers. A bar that mounts at the rear shoulder harness attachment points is ideal. A camera mount should not be close to either the driver or passenger, and it must hold the camera so securely that it will not come loose during adverse conditions.

Lights:

Non-factory lights that will be used on the track should be approved ahead of time. Headlights and brake lights must work correctly.

**Integra Type R Expo 10
Autobahn Country Club Joliet**

Basic Flags:

- **Green:** Session has begun
- **Yellow – Standing:** Slow down. Danger ahead. No passing until the next manned flag station that does not display the yellow flag.
- **Yellow – Waving:** Slow down. Great danger. No passing until the next manned flag station that does not display the yellow flag. A pace car may enter the track.
- **Black – Furled/Pointed:** You have transgressed in some fashion. Come into the pit for a discussion of the infraction or issue. A furled/pointed black flag is used in an attempt to single out a car so that many cars don't come in by mistake.
- **Black – Standing:** If you see it, it's for you. Come into the pit for a discussion. This might be used if a furled/pointed flag has not done the trick. A standing black flag at all stations calls the entire field into the pits.
- **Checkered:** Checkered flag means the session is finished. Complete your lap, gradually slowing down to cool the car off, and come into the pits.
- **Red Flag:** There is an emergency on the track. Come to a quick, safe stop immediately, on the side of the track but on the pavement. Stop in view of a flag station so you know what's going on. Once the emergency is resolved, a standing black flag will be displayed to signal the field to traverse the track to the pits.
- **Blue Flag with Diagonal Stripe:** There is a faster car behind you. You need to signal him to pass when it's safe. If you keep ignoring blue flags, you will be black flagged.
- **Yellow and Red Striped Flag:** There is debris or fluid on the track. Slow down and watch out.
- **White Flag:** Although this flag has another meaning in racing circumstances, in an HPDE it means that a slow moving vehicle has entered the track and you need to be aware of it and keep your eyes open for it. The slow moving vehicle will usually be a tow vehicle on the way to an extraction, but it could also be a lighted emergency vehicle.

Passing Signals:

- We will have different passing zones for the different experience levels, and this will be explained at the event. The methods for signaling a pass that will be used will also be explained at the event.
- Once the faster car has moved offline to pass and is no longer behind the slower car, the slower car should facilitate the pass by lifting slightly, provided it is safe to do so.
- To signal that you are entering the pits, a driver should extend his left arm out at a 90-degree angle upwards, with a clenched fist.
- You should clearly indicate a separate signal for each car you are allowing to pass. Although it is of the discretion of the car being passed to offer a passing signal it is of the discretion of the passing car to accept the "point by." Always be aware the passing car has the right to refuse the point by and will usually indicate that to you so watch your rear view mirror.

Integra Type R Expo 10
Autobahn Country Club Joliet

Passing Rules:

ALL passing must be done only with a point-by from the lead car!!

ALL passing must be initiated and completed when both cars traveling in a straight line and both drivers' steering wheels are straight.

Drivers unhappy with the point-bys that they are or are not getting from slower cars always have the option to pit and ask for space.

Students should not feel pressured by faster drivers -- everyone is learning.

Drivers must monitor and obey flags/track conditions. Perception of unsafe behavior will result in loss of pass-anywhere privileges (at sole discretion of control/event organizers).

Subject to the rules above, advanced and instructor groups may pass anywhere.

Subject to the rules above, driver may pass in the designated passing zones (drivers will be informed of the passing zones in the Driver's Meetings and Classroom Sessions)

Autobahn Facility Information and Policies

Track Maps:

Please go to www.drivefastbesafe.com for detailed track and facilities maps. Click on facilities for a drop down menu of available track maps.

Registration:

All participants must register at the main gate before entering the property. When possible, a list of participants and staff should be provided. Gates open to participants at 7:00a.

Security:

24 hour security is provided.

Paddock Policies:

Please be considerate of others around you.

- Speed limit in the paddock is 15mph. Speed limit on all access roads is 25mph. No bedding of brakes or testing of vehicles is allowed on access roads.
- Asphalt Protection: All awnings and tents must be secured. Pounding stakes or making holes in the asphalt is not allowed for any reason. Any jacks must have wood or metal underneath to prevent damaging the asphalt. No painting any asphalt surfaces.
- Waste Fluids: All waste fluid must be disposed of at the collection center located to the east of the North Timing Tower. Any spills must be reported immediately for proper clean up. Used tires and unwanted parts must be removed by the participant.
- Pit Vehicles: Any pit vehicles must be operated by licensed drivers only. Use is restricted to the paddock area. Children are not allowed to operate these vehicles.
- Bicycles, roller blades and skateboards are not allowed.
- Pets are permitted on the grounds but must be kept on a leash at all times. Pet owners are responsible for cleaning up after their pets.
- Fireworks and Weapons: No fireworks or weapons are allowed anywhere in the facility.
- Music: No loud music, or music that includes obscenities, is allowed.
- Fires: No camp fires are allowed.
- Electric Hook-ups for electric are available on a very limited basis to event organizers only and must be prearranged. Unauthorized parties are not allowed to plug into any buildings.
- Alcohol: No alcohol is permitted in the pits or paddock until thirty minutes after the track events for the day have been completed.

Camping:

Overnight camping is allowed at certain events. All persons staying overnight need to pay the camping fee upon registration. All overnight vehicles must display a camping permit in the front window. Complete camping rules are available at the registration desk, no electric hook-up is available.

Café:

The Autobahn Café serves upscale fast food with an emphasis on quality. The Café is always open for lunch, and often for breakfast at the clients request.

**Integra Type R Expo 10
Autobahn Country Club Joliet**

Pre/Post Event Parking:

No trailers or vehicles may enter the premises prior to the day of an event unless prior arrangements have been made. All participants and vehicles must exit the premises before the registration gate closes on the last day of an event. Please contact Mike Gritter to make arrangements for any trailers or vehicles that must be delivered prior to the first day of an event.

Restrooms and Showers:

Restrooms are located in both the North and South timing towers, as well as at the café. Showers are available and located in the restrooms in the South Tower.

Fuel:

Fuel pumps are located to the east of the café near the circle. 93 and 104 unleaded as well as 110 leaded fuel is available. All pumps accept credit cards, no cash sales. Corporate events may request to set up a credit program with the accounting office. Additional services may be provided with prior notification.

Internet:

Wireless internet is available throughout all the buildings and in a limited capacity in the paddock area.

Noise Restrictions:

A 105db noise limit is strictly enforced. No race engines may be started before 8:00 am or after 6:00 pm.

Public Address System:

The PA system can be heard on 103.7 FM. The PA system is available for use upon request.

Retail Store:

Don't forget the Autobahn Store for all your racing needs! Located at the north end of the tech building, you can outfit yourself from head to toe in the latest safety clothing and equipment including suits, shoes, helmets and the ever important Hans Device. As for the times not racing, consider our newest line of Autobahn Gear. Handsome logo jackets and shirts in various styles and colors are available in every size. Need something, Just Ask! We can be reached at lynn.becker@drivefastbesafe.com.

ATM:

An ATM is located inside the registration building and the Autobahn Paddock Store.

Vendors:

No vendors or sales of any kind are allowed without written permission from Autobahn Country Club. Fees and insurance certificates are required.

Banners/Flyers:

No banners or printed material may be hung on any facilities or structures without prior consent. No flyers or handbills may be distributed.

Photographers:

Photographers and anyone taking video must receive permission to do so. Photo vests are available at the registration desk and must be worn at all times by all professional photographers who wish to go beyond the general paddock areas, they must also identify themselves to "race control" and follow all instructions. Autobahn photographers are available upon request.

Kart Track:

Go Kart rental may be available on a limited basis. Please contact Cole Bosanoz.

Helpful Suggestions

Here's suggestions on helpful items you may want to bring along:

Plastic tarp to cover your stuff (in case of rain or dust clouds)	Extra engine oil
Drinking water	Extra car keys
Hand-cleaner	Fuses
Car cleaning stuff (paper towel, Windex, instant detailer, etc.)	Spare belts
Air tank or compressor	Lounge chair
Tire pressure gauge	Work gloves
Tools	Flashlight
Torque wrench	Event paperwork
Duct or racer's tape	Extra brake pads (front)
	Spare parts can be a good idea...

Get a good night's sleep the night before!

No excessive drinking the night before!

It will be a long, stressful day, and rested students are safer students

Please enjoy yourself! Remember, this is suppose to be fun!

Thank you for your support.

**Integra Type R Expo 10
Autobahn Country Club Joliet**

GENERAL RELEASE AND WAIVER OF LIABILITY

Event: ITRCA, LLC, EXPO 10, Autobahn Country Club (July 3-4, 2010)

I, the undersigned Participant, hereby release "Releasees," which include ITRCA, LLC, the Event organizers, officials, officers, employees, agents, driving instructors, assigns, sponsors, participants, car owners, spectators, and all other persons from any and all liability to me or to my personal representatives, heirs, next of kin and assigns, for any and all loss or damage on account of any injury to my person or property or resulting in death arising out of or in any way related to my presence at the Event. Notwithstanding the limitation of liability hereunder, it is expressly understood under no circumstances shall Releasees be liable for more than the entry fee paid by Participant for this event.

This Release expressly releases Releasees from injuries and damages which are caused by Releasees' negligence, whether active, passive, ordinary or gross, or otherwise.

I acknowledge that the driving instructors of the Event are independent contractors, and not agents of ITRCA, LLC. In the event I permit any other person to drive my vehicle during the Event, I hereby release Releasees from any and all injuries and damages which are caused by negligence, whether active, passive, ordinary or gross, or otherwise of said driver. I further agree to indemnify and hold harmless Releasees from any and all claims, demands or liability in breach or violation of the terms of this Release.

In the event Participant brings suit against one or more Releasees, whether based on contract, tort or otherwise, for any liability, act or omission arising out of the Event, Participant waives the right to trial by jury, and agrees that the exclusive jurisdiction for any action brought by Participant against one or more Releasees shall be in the Circuit Court of Clay County, Missouri, or in any court which sits within or presides over Clay County, Missouri. Participant agrees that Missouri law shall govern the parties' substantive rights. If Releasees are adjudicated to be the prevailing party, Participant shall reimburse Releasees' reasonable attorney fees, plus actual court costs and legal expenses.

Participants are required to have their vehicles inspected by a qualified mechanic prior to the Event, and to bring the completed tech inspection form to registration. ITRCA, LLC may conduct cursory a inspection of Participant's vehicle prior to or during the event, however, in doing so ITRCA, LLC does not make any representations as to the safety or mechanical condition of the vehicle. The responsibility of ensuring that the vehicle is safe and in proper mechanical condition to participate in the Event falls exclusively upon the Participant and his or her mechanic.

I acknowledge that the inspection of my helmet by the Event organizers is for the sole purpose of determining whether my helmet has a label indicating that it has met the minimum, 2000, or 2005 standards of the Snell Memorial Foundation for motorcycle or special application helmets, and that it appears from a visual inspection to contain the appropriate Snell rating sticker or label and to be capable of meeting those standards at the present time. I acknowledge that the Event organizers make no guarantee of fitness for use in "passing" my helmet, and that I am relying solely on my own judgment in using the helmet in the Event. I release, acquit and forever discharge Releasees from any and all liability, claims, demands, or causes of action that may arise from my wearing the inspected helmet, from my attendance at the Event, or from any injury sustained by me, regardless of their negligence.

I represent that I am over the age of 18 years, that I understand that I am participating in a dangerous activity, and that my helmet has not previously been worn in a collision, dropped, or struck by a hard object. I further acknowledge that the above conditions also apply to any helmet that I may borrow from a Releasee, and that I alone am responsible for my decision to wear a borrowed helmet.

This Release is intended to be as broad and inclusive as permitted under applicable state or federal law. If any portion of this Release is held to be invalid, it is agreed that the remaining terms of this Release shall continue in force and effect.

Integra Type-R Expo Official Tech Sheet

You MUST have your car inspected prior to the event! Bring this COMPLETED form to the on-site tech inspection.

Please have this form completed and signed before arriving at the event. You will have to turn in this form to an ITR Expo tech inspector before you will be allowed on the track. If you have any questions regarding this form, or the requirements to pass this inspection, please contact an event organizer for clarification. All vehicles that will be on the track will be subject to an on-site technical inspection. **PLEASE NOTE: For multiple driver cars, EACH DRIVER MUST SUBMIT THEIR OWN TECH INSPECTION FORM! Bring a copy of the Rules to whomever is completing this form so that they may ensure that the vehicle meets or exceeds all of the Rules and safety requirements.**

Driver's Name: _____
Vehicle Make: _____ Vehicle Model: _____ Vehicle Year: _____
Vehicle Color: _____ Car Number: _____ Driver Run Group: _____

You MUST have the following information completed by a qualified service person. You will place demands on your car that far exceed those encountered in normal street driving. You will be required to repair or replace defective or worn items at your own expense prior to being allowed on the track.

Braking system:

- fluid is clear, reservoir is full pedal is firm all brake lights are working
- master cylinder - no leaking fluid or corrosion calipers - no leaks
- pads are less than half worn rotors show no signs of cracks, discoloration or unusual wear

Suspension and steering systems:

- wheel bearings are tightened to specification minimal play in steering linkage
- shocks - no leaks bushings and pivot points show no signs of deterioration
- wheels are not bent or cracked lugs are tightened to specifications
- tires are appropriate size, type and speed rating for car and adequate tread remains to complete the event

Drivetrain:

- engine supports show no signs of cracks and are secure hoses are smooth, tight and firm
- belts are snug and have no cracks or fraying coolant system is full
- throttle linkage cables and cranks are functioning smoothly battery is secured appropriately
- throttle return springs are working properly all wiring is properly harnessed
- clutch functions smoothly without slipping axles have no excessive play
- transmission has no leaks and shifts properly exhaust is functioning properly
- CV joints have boots in place with no leakage and make no noise

Driver and Instructor safety:

- original DOT belts are in good condition for vehicles without approved roll-over protection and stock-type seats or
- a 5 or 6 point harness system in good condition is employed for cars with non-OEM roll-over protection and approved seats (see Rules 'Seats' and "Seatbelts and Harnesses" sections for more information)
- Driver and Passenger seating and restraint systems are identical in design/safety
- If 5 or 6 point harnesses are used, they are no more than five (5) years old.
- optional fire extinguisher is mounted securely
- roll bar is in place for open cars (w/o factory rollover protection)

Other:

- windshield has no large cracks windshield wipers function properly
- left side and rear view mirrors are secure optional pedal covers are secure

Please list any special conditions noted below:

Inspected by: _____ **Title:** _____

By signing this form I certify that a qualified mechanic has performed the above inspections and any deficiencies have been corrected. I understand that I am solely responsible for the condition and suitability of this vehicle for use in this event. I release the inspector, ITR Expo Organizers, ITRCA, LLC and Autobahn Country Club staff / management from any liability arising from a failure of this vehicle for any reason, including the failure of the items listed on this inspection form.
